Lista de medicamentos

La lista de medicamentos preferenciales, *formulary* en inglés, es una lista de medicamentos con receta que se cubren conforme a su plan. La inclusión de medicamentos específicos en la lista de medicamentos del seguro médico se basa en la efectividad, la seguridad y el valor del medicamento.

La lista de medicamentos ofrece una amplia selección de medicamentos con receta genéricos y de marca sugerida por el Comité de Farmacia y Terapias [*Pharmacy and Therapeutics (P&T) Committee*], un grupo de médicos y farmacéuticos quienes investigan y evalúan los medicamentos. Se revisa periódicamente la lista de medicamentos y se actualiza a lo largo del año a fin de asegurar que el conjunto de beneficios que ofrecemos cumpla sus necesidades consistente y adecuadamente.

Si necesita un medicamento con receta, usted y su médico pueden elegir de seis niveles diferentes que se encuentran en la lista de medicamentos. Dichos niveles son: Medicamentos genéricos - Nivel 1 y Nivel 2; Medicamentos de marca preferenciales – Nivel 3; Medicamentos de marca no preferenciales – Nivel 4; Medicamentos especializados preferenciales – Nivel 5; y Medicamentos especializados no preferenciales– Nivel 6. A cada nivel corresponden diferentes gastos compartidos, los cuales pudieran ser un copago o coseguro, dependiendo de su plan. Eso les ofrece, tanto a usted como a su médico, la libertad de elegir un medicamento que sea apropiado para usted. Al mismo tiempo, eso le ayudará a asignar su dinero, con mayor efectividad, para la atención médica. Es importante que sepa que algunos medicamentos, independientemente de su nivel, tal vez tengan un coseguro o copago de $0 si cumplen las condiciones que se enumeran, tanto conforme a los medicamentos preventivos de la Ley de

Administración de beneficios de farmacia

Cuidado de Salud a Bajo Precio [*Affordable Care Act, ACA*] como conforme a los requisitos estatales de la cobertura de anticonceptivos. Dichos medicamentos se indican como "ACA."

Niveles

Los **medicamentos genéricos – Nivel 1 y Nivel 2** tienen el copago/coseguro más bajo. Los medicamentos genéricos ofrecen el mismo nivel de seguridad y calidad que los medicamentos de marca equivalentes. Tienen la misma cantidad de ingredientes activos que los medicamentos de marca. Tal vez se exija que usted use una versión genérica del medicamento si está disponible. **Consulte la sección de "medicamentos genéricos" del Resumen de Beneficios y Cobertura para informarse sobre la cantidad de gastos compartidos de su plan.**

Los **medicamentos de marca preferenciales – Nivel 3** tienen un nivel moderado de copago/coseguro. Estos medicamentos son principalmente medicamentos de marca y "preferenciales" debido a su precio y su efectividad. Este nivel también puede incluir algunos medicamentos genéricos. A lo mejor este nivel. **Consulte la sección de "medicamentos de marca preferenciales" del Resumen de Beneficios y Cobertura para informarse sobre la cantidad de gastos compartidos de su plan.**

Los **medicamentos de marca no preferenciales – Nivel 4** tienen un nivel de copago/coseguro más alto. Estos medicamentos son principalmente medicamentos de marca que son más caros y que tienen una efectividad parecida a los medicamentos de niveles más bajos. Además este nivel puede incluir medicamentos genéricos de costo más alto. **Consulte la sección de "medicamentos de marca no preferenciales" del Resumen de Beneficios y Cobertura para informarse sobre la cantidad de gastos compartidos de su plan.**

Los **medicamentos especializados preferenciales – Nivel 5** tienen un nivel de copago/coseguro más alto. Además estos incluyen los medicamentos especializados que, por lo general, tratan problemas médicos complejos y raros. Dichos medicamentos pueden ser sustancias biológicas y medicamentos de costo elevado independientemente de cómo se administren (inyectables, orales, transdérmicos o inhalantes).

Los **medicamentos especializados no preferenciales – Nivel 6** tienen el nivel de copago/coseguro más alto. Además estos incluyen los medicamentos especializados que no se encuentran en la lista de medicamentos. Dichos medicamentos pueden ser sustancias biológicas y medicamentos de costo elevado independientemente de cómo se administren (inyectables, orales, transdérmicos o inhalantes) y su efectividad es parecida a los medicamentos del Nivel 5.

Administración de beneficios de farmacia

Los medicamentos preventivos con gastos compartidos de cero conforme a la Ley de Cuidado de Salud a Bajo Precio [*Affordable Care Act, ACA*] – Nivel ACA tienen gastos compartidos de cero, tanto de copagos como del coseguro. Dichos medicamentos, **los cuales incluyen los anticonceptivos y otros medicamentos preventivos,** son medicamentos preventivos, tanto de marca como genéricos, se cubren con un copago de $0 con tal que se cumplan ciertas condiciones clínicas. Además, los medicamentos del Nivel ACA se enumeran en un documento aparte que se encuentra en el sitio web de THNM y se actualiza cada trimestre.

Los **medicamentos para la salud de comportamiento [*Behavioral Health, BH*] y el trastorno del uso de sustancias adictivas [*Substance Use Disorder, SUD*] – Nivel BH** tienen gastos compartidos de cero, tanto de copagos como del coseguro. Dichos medicamentos son medicamentos de marca y genéricos que se pueden utilizar para tratar un problema de salud de comportamiento o de trastorno del uso de sustancias adictivas. A lo mejor la cobertura de algunos de esos medicamentos esté sujeta a los requisitos de autorización previa.

Medicamentos genéricos que le cuestan $0 para varios problemas médicos crónicos
La cobertura de medicamentos genéricos se proporciona, sin costarle nada a usted, para ciertos medicamentos que se utilizan para tratar asma, trastorno bipolar, enfermedad pulmonar obstructiva crónica, insuficiencia cardíaca congestiva, enfermedad de las arterias coronarias, depresión, diabetes, hipercolesterolemia e hipertensión. No todos los planes ofrecen este beneficio; favor de consultar el Resumen de Beneficios y Cobertura para informarse sobre los beneficios específicos de su plan. Si desea consultar una lista de estos medicamentos, visite: https://www.truehealthnewmexico.com/member-pharmacy-formulary/

Medicamentos anticancerosos que se administran por vía oral
La cobertura de estos medicamentos está sujeta a los mismos requisitos de autorización previa como los medicamentos anticancerosos inyectables que se administran por vía intravenosa cubiertos por el plan de seguro médico. Los medicamentos que se administran por vía oral no pueden costar más que los medicamentos equivalentes inyectables por vía intravenosa. Los medicamentos inyectables por vía intravenosa no pueden costar más que los medicamentos se administran por vía oral.

A lo mejor se cubran los **medicamentos que no se encuentran en la lista de medicamentos** con tal que los medicamentos de la lista de medicamentos no funcionen para usted. Si usted necesita un medicamento que no se encuentra en la lista de medicamentos, su médico pudiera solicitar la cobertura con los gastos compartidos de su Nivel 4 (medicamentos de marca no preferenciales) o de su Nivel 6 (medicamentos especializados no preferenciales) con tal que solicite una exención de cobertura.

Para entender nuestros símbolos

Autorización previa

Usted verá el símbolo “PA” (autorización previa) o “MNPA” (autorización previa por necesidad médica). La autorización previa ayuda a asegurar que usted esté utilizando los mejores medicamentos de la manera más segura.

Si usted está tomando uno de estos medicamentos actualmente o si se le ha recetado uno de ellos hace poco, favor de hablar con su médico acerca de otras opciones. Usted o su médico puede solicitar una autorización llamando a 866-823-1606.

Por lo general, los medicamentos que necesitan autorización previa son:

- Medicamentos más nuevos de los cuales el plan seguro médico quiere estar al tanto de cómo se están utilizando.
- Medicamentos que no se encuentran en la lista de medicamentos para los cuales se exige que se usen primero medicamentos de la lista de medicamentos antes de que los cubra el plan. Estos medicamentos no se utilizan como la primera opción estándar para tratar un problema médico.
- Medicamentos con efectos secundarios potenciales que el plan seguro médico quiere supervisar por la seguridad del paciente.
- Medicamentos que se clasifican como medicamentos especializados.

Terapia escalonada

Usted verá el símbolo “ST” (terapia escalonada) al lado de algunos medicamentos en las tablas de la lista de medicamentos de este folleto. La terapia escalonada asegura que usted esté tomando el medicamento más efectivo al mejor precio. Eso quiere decir que deberá probar primero los medicamentos menos caros, por lo general, los medicamentos genéricos o los medicamentos que se consideran el tratamiento estándar de primera elección.

Cómo funciona la terapia escalonada

- Primer paso: Si la terapia escalonada afecta al medicamento que se le ha recetado, se le pedirá que pruebe primero un medicamento genérico o medicamentos de tratamiento de primera elección. El medicamento que se recomiende será aprobado por la Administración de Medicamentos y Alimentos [FDA por sus siglas en inglés] para proporcionar el mismo beneficio a la salud a un costo muy reducido.

Administración de beneficios de farmacia

- Segundo paso: Si no funcionara para usted el medicamento genérico del primer paso, entonces a lo mejor pueda recibir el medicamento de marca. Si desea conseguir información más detallada sobre la terapia escalonada, llame al 866.823.1606.

La división de servicios de farmacia de True Health New Mexico responderá a las solicitudes de exenciones del programa de terapia escalonada conforme a la urgencia de la situación. En las circunstancias donde ya se haya establecido un medicamento de terapia escalonada, True Health New Mexico le proporcionará un suministro provisional del medicamento a los asegurados afectados por el programa de terapia escalonada, en espera del resultado de la solicitud de exención.

Límites que rigen las cantidades
El símbolo "QL" al lado de los medicamentos en este folleto de la lista de medicamentos representa los límites que rigen las cantidades. A fin de asegurarse de que usted reciba la dosis más rentable de su medicamento, se pueden imponer a algunos medicamentos límites que rigen las cantidades o la duración de las dosis. Dichos límites se basan en las directrices de la Administración de Medicamentos y Alimentos [FDA por sus siglas en inglés], la literatura clínica y las instrucciones del fabricante. Los límites que rigen las cantidades fomentan el uso debido del medicamento, previenen desperdicios y ayudan a controlar los costos.

Para algunos medicamentos, las directrices de las dosis a lo mejor recomienden que los pacientes tomen una dosis más alta del medicamento una vez al día en vez de dosis más pequeñas varias veces al día. Los límites que rigen las cantidades cumplen las directrices y cubren una dosis más alta al día.

Se limitan las recetas para los medicamentos especializados a un suministro de 30 días. Si desea conseguir información más detallada sobre los límites que rigen las cantidades o la duración de las dosis, llame al 866.823.1606.

Sobre los medicamento genéricos

Los medicamentos genéricos tienen los mismos ingredientes activos que los medicamentos de marca equivalentes, pero cuestan considerablemente menos. No todos los medicamentos tienen un equivalente genérico. Por lo general, los medicamentos nuevos reciben la protección de patente por veinte (20) años. Una vez que caduque el patente, otras compañías

farmacéuticas pueden producir el mismo medicamento con una formulación genérica. Las compañías que producen los medicamentos genéricos no tienen que invertir grandes cantidades de dinero en investigaciones, porque la compañía que produce el medicamento equivalente de marca ya lo ha hecho. Además las compañías que producen los medicamentos genéricos no tienen que hacer publicidad para sus medicamentos. Por consiguiente, los productores de medicamentos genéricos pueden compartir los ahorros con usted.

Los medicamentos genéricos tienen los mismos ingredientes activos que los medicamentos de marca, pero pueden variar sus ingredientes inactivos. Por eso a lo mejor el medicamento genérico luzca diferente que el medicamento de marca. Los ingredientes inactivos pueden incluir los tintes que se utilizan para colorear el medicamento o los polvos que se utilizan para formar las pastillas. Los ingredientes inactivos no afectan cómo funciona el medicamento genérico.

La Administración de Medicamentos y Alimentos [FDA por sus siglas en inglés] regula los fabricantes de medicamentos genéricos así cómo regula los fabricantes de medicamentos de marca. El medicamento genérico tiene que cumplir las medidas estrictas de la FDA a fin de asegurar que proporcione la misma cantidad del ingrediente activo en el mismo periodo de tiempo que su equivalente de marca. El fabricante del medicamento genérico tiene que probar que produce su producto conforme a las mismas directrices estrictas del medicamento de marca.

Medicamentos de corto plazo

Estos son medicamentos que usted necesita enseguida. Dichos medicamentos se utilizan para tratar infecciones a corto plazo o para aliviar el dolor temporalmente. Si llama al 866-341-8561 le pueden ayudar a localizar la farmacia de venta al por menor de la red que esté más cerca. Para surtir su medicamento con receta, presente su tarjeta de identificación de asegurado y la receta médica escrita y pague el coseguro/copago de su seguro según se describe más arriba.

Medicamentos de largo plazo

Estos son medicamentos que usted toma de ordinario. Pueden ser medicamentos para tratar el asma, la presión arterial alta, la diabetes, etc. Se le puede enviar por correo a su casa un suministro máximo de 90 días de estos medicamentos. Favor de llamar al 866-341-8561 para informarse más a fondo sobre sus opciones de encargo por correo.

Administración de beneficios de farmacia

Medicamentos especializados

Los medicamentos especializados tratan problemas médicos específicos como cáncer, hemofilia, hepatitis, esclerosis múltiple, psoriasis, hipertensión arterial pulmonar, virus respiratorio sincitial y artritis reumatoide entre otros. Le pueden surtir los medicamentos especializados en *CVS Specialty Pharmacy. CVS Specialty Pharmacy* es una farmacia que provee medicamentos especializados. Favor de llamar al 800.237.2767 de las 6:30 de la mañana a las 8:00 de la noche (hora de la zona central) de lunes a viernes para informarse más a fondo sobre cómo surtir sus medicamentos especializados.

Cómo se surten sus medicamentos con receta

Para surtir su medicamento con receta cuando esté de viaje

Si usted viaja fuera de su zona local, miles de farmacias por todo el país aceptan la tarjeta de identificación de asegurado de su plan de seguro médico. Si desea localizar una farmacia que participa en la red, llame al Centro de Atención al Cliente al 866-341-8561.

Para que le surtan un medicamento con receta en una farmacia que participa en la red pero que está fuera de la zona, presente la tarjeta de identificación de asegurado de su plan de seguro médico. Algunas farmacias tal vez le pidan que usted pague el precio del medicamento en su totalidad. Si sucediera eso:

- Entregue un formulario de demanda de seguro para reembolso directo [Direct Reimbursement Claim] al plan de seguro médico al:
  CVS Caremark – RxClaim
  P.O. Box 52136
  Phoenix, AZ 85072-2136
  O usted puede llamar al 866-341-8561 para recibir ayuda.
  Si se aprueba su demanda de seguro, se le reembolsará la cantidad que usted pagó por el medicamento, menos la cantidad del copago debido.

Si usted estará fuera de su casa por un plazo de tiempo extendido, o si va a viajar fuera del país, a lo mejor deberá utilizar nuestro servicio de encargo por correo a fin de recibir un suministro de 90 días antes de irse de casa.

Suministros de medicamentos que no cubre el plan de seguro médico

No se cubrirán los medicamentos que el asegurado reciba sin cobro alguno (de indemnización laboral, los medicamentos que se compran con un cupón del fabricante, etc.).
No se cubrirán las recetas médicas que se hayan escrito hace más de un año. Su médico tendrá que escribir una nueva receta médica.

Lista de abreviaturas

ACA: Ley de Cuidado de Salud a Bajo Precio [*Affordable Care Act*].

BH: Salud de comportamiento.

PA: Autorización previa. El plan de seguro médico exige que usted mismo o su médico consigan la autorización previa para ciertos medicamentos. Eso quiere decir que usted tendrá que recibir la aprobación antes de surtir sus medicamentos con receta. Si usted no recibiera la aprobación, a lo mejor no cubramos el medicamento.

MNPA: Autorización previa por necesidad médica. El plan exige que usted mismo o su médico consigan la autorización previa para ciertos medicamentos. Eso quiere decir que usted tendrá que recibir la aprobación de la necesidad médica antes de surtir sus medicamentos con receta. Si usted no recibiera la aprobación, a lo mejor no cubramos el medicamento.

QL: Límites que rigen las cantidades. Para ciertos medicamentos, el plan de seguro médico limita las cantidades de los medicamentos que cubrimos.

ST: Terapia escalonada. En algunos casos, el plan de seguro médico exige que primero pruebe ciertos medicamentos para tratar su problema médico antes de que cubramos otro medicamento para dicho problema médico. Por ejemplo, si tanto el Medicamento A como el Medicamento B tratan su problema médico, no cubriremos el Medicamento B a menos que pruebe primero el Medicamento A. Si el Medicamento A no funciona para usted, entonces cubriremos el Medicamento B.

Medicamentos para la salud de comportamiento [*Behavioral Health, BH*] y el trastorno del uso de sustancias adictivas [*Substance Use Disorder, SUD*]

La tabla a continuación incluye medicamentos de BH y SUD cuyo copago o coseguro es $0. La lista de medicamentos cubiertos [*formulary*] de su plan no cubre todos los medicamentos que aparecen en esta tabla. Favor de consultar la lista de medicamentos cubiertos de su plan para una lista completa de los medicamentos cubiertos y todos los requisitos de cobertura pertinentes.
