

**True Health New Mexico
Site-of-Care Program Drug List
July 1, 2022**

Effective July 1, 2022, more drugs will be added to the True Health New Mexico Mandatory Site-of-Care Program.

- Physicians providing infusion therapy of these drugs in an **outpatient-hospital setting** will need to transition members to Optum Infusion Services.
- Infusions provided in the **provider-office setting are still permitted** and are **not impacted** by this mandatory program.
