State Partners: None

Discussion

- **Mi Via Vendor List:** In progress – we have a list - Angelique will aggregate the information and share with the committee to determine our next steps at the June meeting.
- **Check Detail Report/Vendor Remittance:** Noted from last meeting: *Vendor Remittance Report is available in FoCos. Vendors that do not use FoCos are not receiving the detailed check detail report.* Meagan shared the following information in the meeting chat: <https://nm.focosonline.com/nm/> once you "launch focos" it will give you the option to login however under where you put the login credentials there is a option to "request access"
- **Allowance for the use of a CSV file:** Tracy received an email from the FoCos team stating that the engineering team would like to meet next week about the possibility of uploading a CSV file for billing. If we can upload files in bulk, that would be ideal.
- **Resolution to the GRT on budget:** Discussion of HB375: Mi Via Waiver Program Provider Gross Receipts. This bill places the GRT outside of the Iba. It was stated that this bill did go through and that the Governor signed the bill the day before our meeting.
- **EVV Legislation:** Committee discussed HB269 (Health Care Authority Visit Verification) and asked that we create and disseminate a Letter of Support for this legislation to urge the Governor to sign the bill. This legislation is instrumental in allowing for an open EVV system to allow for better efficiency. This committee has been requesting this since before EVV was implemented in NM and now is our time to get it pushed through!
- **Access to our portion of the budget:** No update on this item.
- **Authenticare Contract:** Discussion about the current contract between the HCA and Authenticare. Committee discussed joining together to possibly create a Call To Action to the Governor.

Items still pending from 12/10/2024 meeting:

- Is it possible to have Guadalupe (or a Conduent representative) attend our monthly? **Guadalupe agreed to have a Conduent rep at our meetings at this meeting**
- Can a CSV file be submitted rather than manual data entry? A CSV file will eliminate data entry errors. **Guadalupe will take this back to the FOCOS team. This is still pending.**

Next Steps:

- Send letter regarding EVV to Mi Via Vendor committee and ADDCP

Next Meeting: May 13th 2025
