Current Procedural Terminology (including procedure codes, nomenclature, descriptors and other data contained therein) is copyright © 2015 American Medical Association. All rights reserved The federal Deficit Reduction Act of 2005 (signed in 2006) requires Medicaid providers to report the 11-digit National Drug Code (NDC) on the CMS1500 and UB04 claim forms as well as on the 837 electronic transactions when billing for injections and other drug items administered in outpatient offices, hospitals, and other clinical settings. The first column on this list has the HCPCS codes that require an NDC for providers submitting outpatient prospective payment system (OPPS) claims. The second column has the HCPCS codes that require an NDC for all other providers, not the OPPS providers. While every attempt has been made to assure this listing is accurate, in the event of error or subsequent change, the pricing policies of the Medicaid Program will prevail rather than this listing. Please note the end date of discontinued Procedure Codes during the past 2 years.
