

Technology First Spotlight Series

Jessica Ochoa Hernandez, Medicaid Market Supervisor for Electronic Caregiver will be the presenter for our Technology First Spotlight Series this month.

"Electronic Caregiver is excited to share how our technology is transforming independence, safety, and daily support for people with I/DD across New Mexico. Our innovative solutions are designed to promote autonomy while ensuring 24/7 protection, helping individuals to live more confidently in their homes and communities.

Tools like emergency response, medication reminders, and activity monitoring empower individuals, families, and support teams with reliable, user-friendly resources. We strive to ensure that our services align with person-centered planning and the unique needs of each participant. Most importantly, we emphasize dignity, choice, and inclusion by offering technology that adapts to each person's goals and preferred lifestyle."

Why Should I Attend

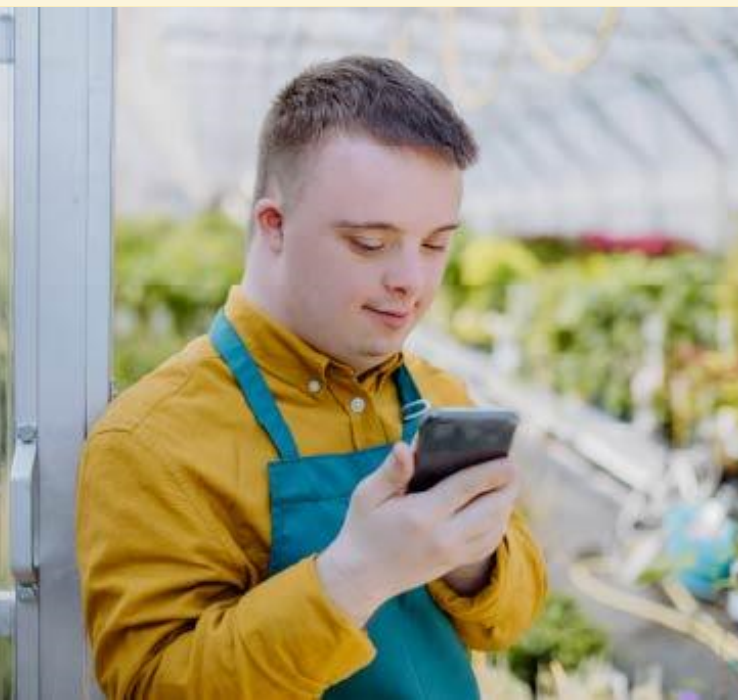

- Learn about experiences and outcomes created through Enabling Technology for individuals in New Mexico.
- Participate in a live demonstration from a technology vendor.
- Engage with other members of the New Mexico disability community on technology first approaches.

Agenda

- 10:00 am - Welcome.
- 10:05 am - Presentations
