

Supports Waiver

Acknowledgment of receipt of ANE information for EMOD, AT and VMOD providers who enter the home.

The Supports Waiver Standards (15.2) require that some service providers are required to acknowledgement receipt of important information about ANE reporting. These service providers are providers of Environmental Modification, AT and Vehicle Modification providers.

I have read and understand the New Mexico Department of Health Reporting Brochure and understand my responsibilities to recognize and report Abuse, Neglect and Exploitation (ANE).
