

## NMDOT Transit and Rail Division

### **Group Tier II Transit Asset Management Plan 2023 - 2026 September 30, 2022**

## Introduction

In 2016, the Federal Transit Administration (FTA) published a rule, 49 CFR Part 625, to require public transit providers that receive Federal transit assistance to undertake certain transit asset management activities. Transit asset management is the strategic and systematic practice of procuring, operating, inspecting, maintaining, rehabilitating, and replacing transit capital assets to manage their performance, risks, and costs over their life cycles, for the purpose of providing safe, cost-effective, and reliable public transportation. Asset management is a cornerstone of effective performance management. By leveraging data to improve investment decision-making, asset management improves reliability, safety, cost management, and customer service. This NMDOT-sponsored Group Tier II Transit Asset Management Plan (TAM Plan) covers all recipients of Section 5311 funding for rural public transportation in the state. The TAM Plan covers a four-year period from FFY 2023-2026.

## Brief Overview

The New Mexico Department of Transportation (NMDOT) is responsible for preparing a Group Tier II Transit Asset Management Plan (TAM Plan). The TAM Plan includes most of the state's 5311 subrecipients, with three exceptions. The Navajo Nation is included in the Arizona TAM Plan. Ohkay Owingeh is an FTA tribal direct recipient and has opted out of the Group Tier II TAM Plan. Rio Metro operates rail service and therefore falls into Tier I. The purpose of this TAM Plan is to update the vehicle, facility, and equipment inventories and project state of good repair needs for 2023-2027.

## Subrecipients

Agency Name	
City of Carlsbad	Grant County
City of Clovis	Incorporated County of Los Alamos
City of Hobbs	North Central Regional Transit District
City of Las Vegas	Pueblo of Laguna
City of Portales	South Central Regional Transit District
City of Roswell	Town of Red River
City of Socorro	Village of Milan
Gallup Express	Zia Therapy Center, Inc.
Golden Spread Rural Frontier Coalition	Zuni Pueblo

## Methods for Target-Setting

The purpose of TAM planning is to maintain a State of Good Repair and guide future capital investments. Before addressing the four required elements, FTA required all TAM Plan preparers to define State of Good Repair. The basis for defining State of Good Repair is a Useful Life Benchmark (ULB). The ULB is defined as the expected lifecycle of a capital asset given its operating conditions. The targets in the TAM Plan are intended to improve upon the existing State of Good Repair.

## Performance Targets and Measures

Agency Name	Asset Category	Asset Class	2022 Target	2023 Target	2024 Target	2025 Target	2026 Target	2027 Target
NMDOT	Equipment	Non Revenue/Service Automobile	20%	20%	20%	20%	20%	20%
NMDOT	Equipment	Other non-vehicular equipment	20%	20%	20%	20%	20%	20%
NMDOT	Facilities	Passenger Facilities	20%	20%	20%	20%	20%	20%
NMDOT	Facilities	Administration	20%	20%	20%	20%	20%	20%
NMDOT	Facilities	Maintenance	20%	20%	20%	20%	20%	20%
NMDOT	Revenue Vehicles	BU - Bus	20%	20%	20%	20%	20%	20%
NMDOT	Revenue Vehicles	CU - Cutaway Bus	20%	20%	20%	20%	20%	20%
NMDOT	Revenue Vehicles	MV - Mini-van	20%	20%	20%	20%	20%	20%
NMDOT	Revenue Vehicles	VN - Van	20%	20%	20%	20%	20%	20%

## Capital Asset Inventory

The lists of capital assets are found in Appendix A, including the Asset Registers for Revenue Vehicles (RV), Equipment (EQ), and Facilities (FC). Appendix C contains the list of third-party non-FTA funded assets.

### Asset Inventory Summary

Asset Category/Class	Total Number	Avg Age	Avg Mileage	Avg Replacement Cost/Value	Total Replacement Cost/Value
Revenue Vehicles	228	7.1	133,129	\$146,418.86	\$33,383,500.00
BU - Bus	30	6.3	142,257	\$229,866.67	\$6,896,000.00
CU - Cutaway Bus	168	7.2	142,785	\$135,699.40	\$22,797,500.00
MV - Mini-van	26	7.1	66,802	\$123,000.00	\$3,198,000.00
VN - Van	4	11.8	90,238	\$123,000.00	\$492,000.00
Equipment	9	8.4	N/A	\$31,699.00	\$285,291.00
Non Revenue/Service Auto	7	6.3	N/A	\$29,600.00	\$207,200.00
Other Rubber Tire Vehicles	2	18	N/A	\$39,045.00	\$78,090.00
Facilities	17	18.3	N/A	\$0.00	\$0.00
Administration	4	13.5	N/A	\$0.00	\$0.00
Maintenance	8	23.0	N/A	\$0.00	\$0.00
Parking Structures	5	14.6	N/A	\$0.00	\$0.00

## Revenue Vehicles

### Useful Life Benchmarks

As stated earlier, the purpose of TAM planning is to maintain a State of Good Repair and guide future capital investments. Before addressing the four required elements, FTA required all TAM Plan preparers to define State of Good Repair. The basis for defining State of Good Repair is a Useful Life Benchmark (ULB). The ULB is defined as the expected lifecycle of a capital asset given its operating conditions.

The following ULBs have been set for rolling stock and facilities in the TAM Plan.

Category	Typical Characteristics		Useful Life Benchmark	
	Approx. GVW	Average Cost	Years	Miles
Heavy-Duty Large Bus	33,000 to 40,000	\$325,000 to over \$600,000	15	625,000
Heavy-Duty Small Bus	26,000 to 33,000	\$200,000 to \$325,000	13	455,000
Medium-Duty and Purpose-Built Bus	16,000 to 26,000	\$75,000 to \$175,000	10	285,000
Light-Duty Mid-Sized Bus	10,000 to 16,000	\$50,000 to \$65,000	8	240,000
Light-Duty Small Bus, Cutaways, and Modified Van	6,000 to 14,000	\$30,000 to \$40,000	7	175,000

These criteria are taken from the *New Mexico State Management Plan for the Administration of Federal Transit Grants*. They were originally developed for the *State Management Plan* based on historical data. In determining vehicle replacement priorities, NMDOT tends to give more weight to vehicle mileage over vehicle age, as mileage is a better indicator of wear and tear.

In addition to the age and mileage benchmarks above, New Mexico also provides a secondary rating of condition based on inspection and maintenance history. This additional condition assessment is used as a supplement to the age and mileage benchmarks in situations where a vehicle may have years or mileage remaining but still need replacement due to factors such as manufacturer issues, excessive wear and tear, or other circumstances. The vehicle condition ratings used are: Excellent, Good, Adequate, Marginal and Poor.

## Replacement Costs

The current Statewide Price Agreement has been used to estimate replacement costs for similar models. There are no minivan options on the current price agreement, so the lowest-cost cutaway bus was used to calculate minivan replacement costs. As a result, the cost to replace minivans is inflated. Should a new price agreement for minivans become available, replacement costs will be adjusted accordingly.

## Facilities and Equipment

The following criteria are based on FTA's TERM-Lite (Transit Economic Requirements Model Lite) analysis tool. NMDOT uses the standard 40-year life cycle for all facilities.

Rank	Category	Description
5	Excellent	Facility and elements are brand new, no major problems exist, and require only routine preventative maintenance
4	Good	Facility and elements are in good working order and require only nominal or infrequent minor repairs (greater than 6 months between minor repairs)
3	Adequate	Facility or elements require frequent minor repairs (less than 6 months between repairs) or infrequent major repairs (more than 6 months between major repairs)
2	Marginal	Facility or elements require frequent major repairs (less than 6 months between major repairs)
1	Poor	Facility or elements are in poor condition that continued use presents potential problems

## State of Good Repair

Using these ULBs, State of Good Repair is defined as follows:

For rolling stock: No more than 20% of the fleet in each category past ULB for age or mileage.

For facilities and equipment: No more than 20% of facilities and 20% of equipment below condition rating 3 (Adequate) and 0% below condition 2 (Marginal).

## Decision Support Tools

Process/Tool	Brief Description
New Mexico State Management Plan	The State Management Plan contains the useful life benchmarks used in the TAM Plan. Those Useful Life Benchmarks are based on Gross Vehicle Weight, cost of vehicle, and heavy-, medium- or light-duty vehicles.
Electronic Grant Management System (a.k.a. Blackcat)	Blackcat is the source of vehicle, facility, and equipment inventories used in the TAM Plan. In August-September 2022, all subrecipients were asked to update all inventories to reflect current mileages, conditions, and to reconcile 2021 National Transit Database inventory to ensure that the RVI ID in both Blackcat and NTD match.
2021-2023 Statewide Price Agreement for Transit Vehicles	Current Statewide Price Agreement used to estimate replacement costs for similar models. There are no minivan options on the current price agreement, so the lowest-cost cutaway bus was used to calculate minivan replacement costs. As a result, the cost to replace minivans is inflated. Should a new price agreement for minivans become available, replacement costs will be adjusted accordingly.

## Condition Assessment

Appendix B contains the Asset Condition Assessments for the Revenue Vehicles (RV), Equipment (EQ), and Facilities (FC) in Appendix A.

### Asset Condition Summary

Asset Category/Class	Total Number	Avg Age	Avg Mileage	Avg Replacement Cost/Value	Total Replacement Cost/Value	% At or Exceeds ULB	Number of Facilities less than 3 on TERM scale
Revenue Vehicles	228	7.1	133,129	\$146,418.86	\$33,383,500.00	32%	N/A
BU - Bus	30	6.3	142,257	\$229,866.67	\$6,896,000.00	20%	N/A
CU - Cutaway Bus	168	7.2	142,785	\$135,699.40	\$22,797,500.00	32%	N/A
MV - Mini-van	26	7.1	66,802	\$123,000.00	\$3,198,000.00	46%	N/A
VN - Van	4	11.8	90,238	\$123,000.00	\$492,000.00	75%	N/A
Equipment	9	7.9	N/A	\$31,699.00	\$285,291.00	44%	N/A
Non Revenue/Service Auto	7	6.3	N/A	\$28,290.91	\$169,745.00	43%	N/A
Other Rubber Tire Vehicles	2	10.5	N/A	\$39,045.00	\$78,090.00	50%	N/A
Facilities	17	18.3	N/A	\$0.00	\$0.00	N/A	1
Administration	4	13.5	N/A	\$0.00	\$0.00	N/A	0
Maintenance	8	23.0	N/A	\$0.00	\$0.00	N/A	1
Parking Structures	5	14.6	N/A	\$0.00	\$0.00	N/A	0

Using this information, the current investment required to achieve all State of Good Repair targets for revenue vehicles is roughly \$3,950,000. This amount was calculated as follows:

1. Calculating the number of vehicles in each category needing replacement to meet the 20% targets.
2. Multiplying the average replacement cost by each number in Step 1 and adding them together for a grand total.

## Investment Prioritization

As part of its annual application process, NMDOT evaluates capital requests using the Useful Life Benchmarks contained in the State Management Plan. Capital awards are granted based on eligibility of project, availability of funds, and assessment of vehicle condition. Priority is given to higher-mileage vehicles and/or those with a condition rating of Poor. Revenue vehicles are prioritized over non-revenue vehicles. In addition, the NMDOT and its subrecipients have received discretionary grants for facility construction and improvement and low/no emissions vehicles and supporting infrastructure. All proposed investments include estimated local match requirements.

## Proposed Investments

Project Name	Project Year	Asset Category	Asset Class	Cost	Priority
Los Alamos Low/No Emissions Discretionary	2023	Revenue Vehicles	BU - Bus	\$1,856,250.	High
NCRTD Low/No Emissions Espanola	2023	Revenue Vehicles	BU - Bus	\$3,650,000.00	High
SCRTD Low/No Emissions Discretionary	2023	Revenue Vehicles	BU - Bus	\$3,139,853.00	High
SCRTD 5339(b) Discretionary (Vehicles and Facility)	2023	Facilities	Maintenance	\$3,839,853.00	High
NCRTD 5339(b) Discretionary Taos Facility	2023	Facilities	Maintenance	\$6,563,863.00	High
NCRTD Low/No Emissions Discretionary Taos	2023	Revenue Vehicles	BU - Bus	\$6,248,225.00	High
2024 Annual Capital Awards	2024	Revenue Vehicles	All Vehicle Types	\$3,125,000.00	High
2025 Annual Capital Awards	2025	Revenue Vehicles	All Vehicle Types	\$3,125,000.00	High
2026 Annual Capital Awards	2026	Revenue Vehicles	All Vehicle Types	\$3,125,000.00	High
2023 Annual Capital Awards	2023	Revenue Vehicles	All Vehicle Types	\$3,125,000.00	High
